

Always
a move
ahead.

& WHAT'S
YOUR
RIDE?

With clever minds and
intelligent solutions.

TODAY. TOMORROW. TOGETHER.

Always one train ahead.

This is much more than just a slogan to us.

It is the guiding principle of ÖBB Train Tech. It is our motivation to always think ahead along the entire maintenance process. As a full-service provider with ECM responsibility, we offer you everything from a single source.

This is how we make tomorrow's mobility possible.

Modern technology enables us to detect and resolve malfunctions in good time, before major damage can occur. And our technicians do this on the spot, whenever possible. Around the clock. Far beyond the borders of Austria.

The best maintenance is and will always be the one you don't notice.

In order to be able to offer you exactly that, we invest not only in the most modern technology and systems, but above all in clever minds who can offer you tailor-made, intelligent maintenance concepts thanks to their experience and specialist knowledge. This makes us number one when it comes to rail vehicle maintenance.

For us, always being one step ahead means:

Being able to guarantee these services to our customers.

- **Top-qualified technicians:**
4,000 highly qualified experts with 80,000 years of experience.
- **Innovation:**
Our 300 technicians are already working today on the solutions for tomorrow.
- **Short downtimes in the workshops:**
We carry out repairs reliably and with the highest quality in mind when the vehicles are not needed.
- **Intelligent maintenance & innovative solutions:**
We divide both light and heavy maintenance of rail vehicles into individual maintenance modules. With condition-based maintenance, we are setting new standards in terms of safety, reliability and cost-effectiveness.
- **Extensive spare parts pool:**
We repair almost all parts installed in the vehicles in-house.
- **Dense service network:**
Maintenance services along the most important railway corridors form a dense network in Austria.
- **Mobile maintenance:**
Carrying out minor maintenance operations on the vehicle on site.
- **Absolute reliability:**
200 customers across 20 European countries trust in our services.

Unsere Produkte.

Wir organisieren die komplette Instandhaltung Ihrer Fahrzeuge. Deshalb bieten wir Ihnen auch eine umfassende Produkt- und Servicepalette:

Locomotives. .

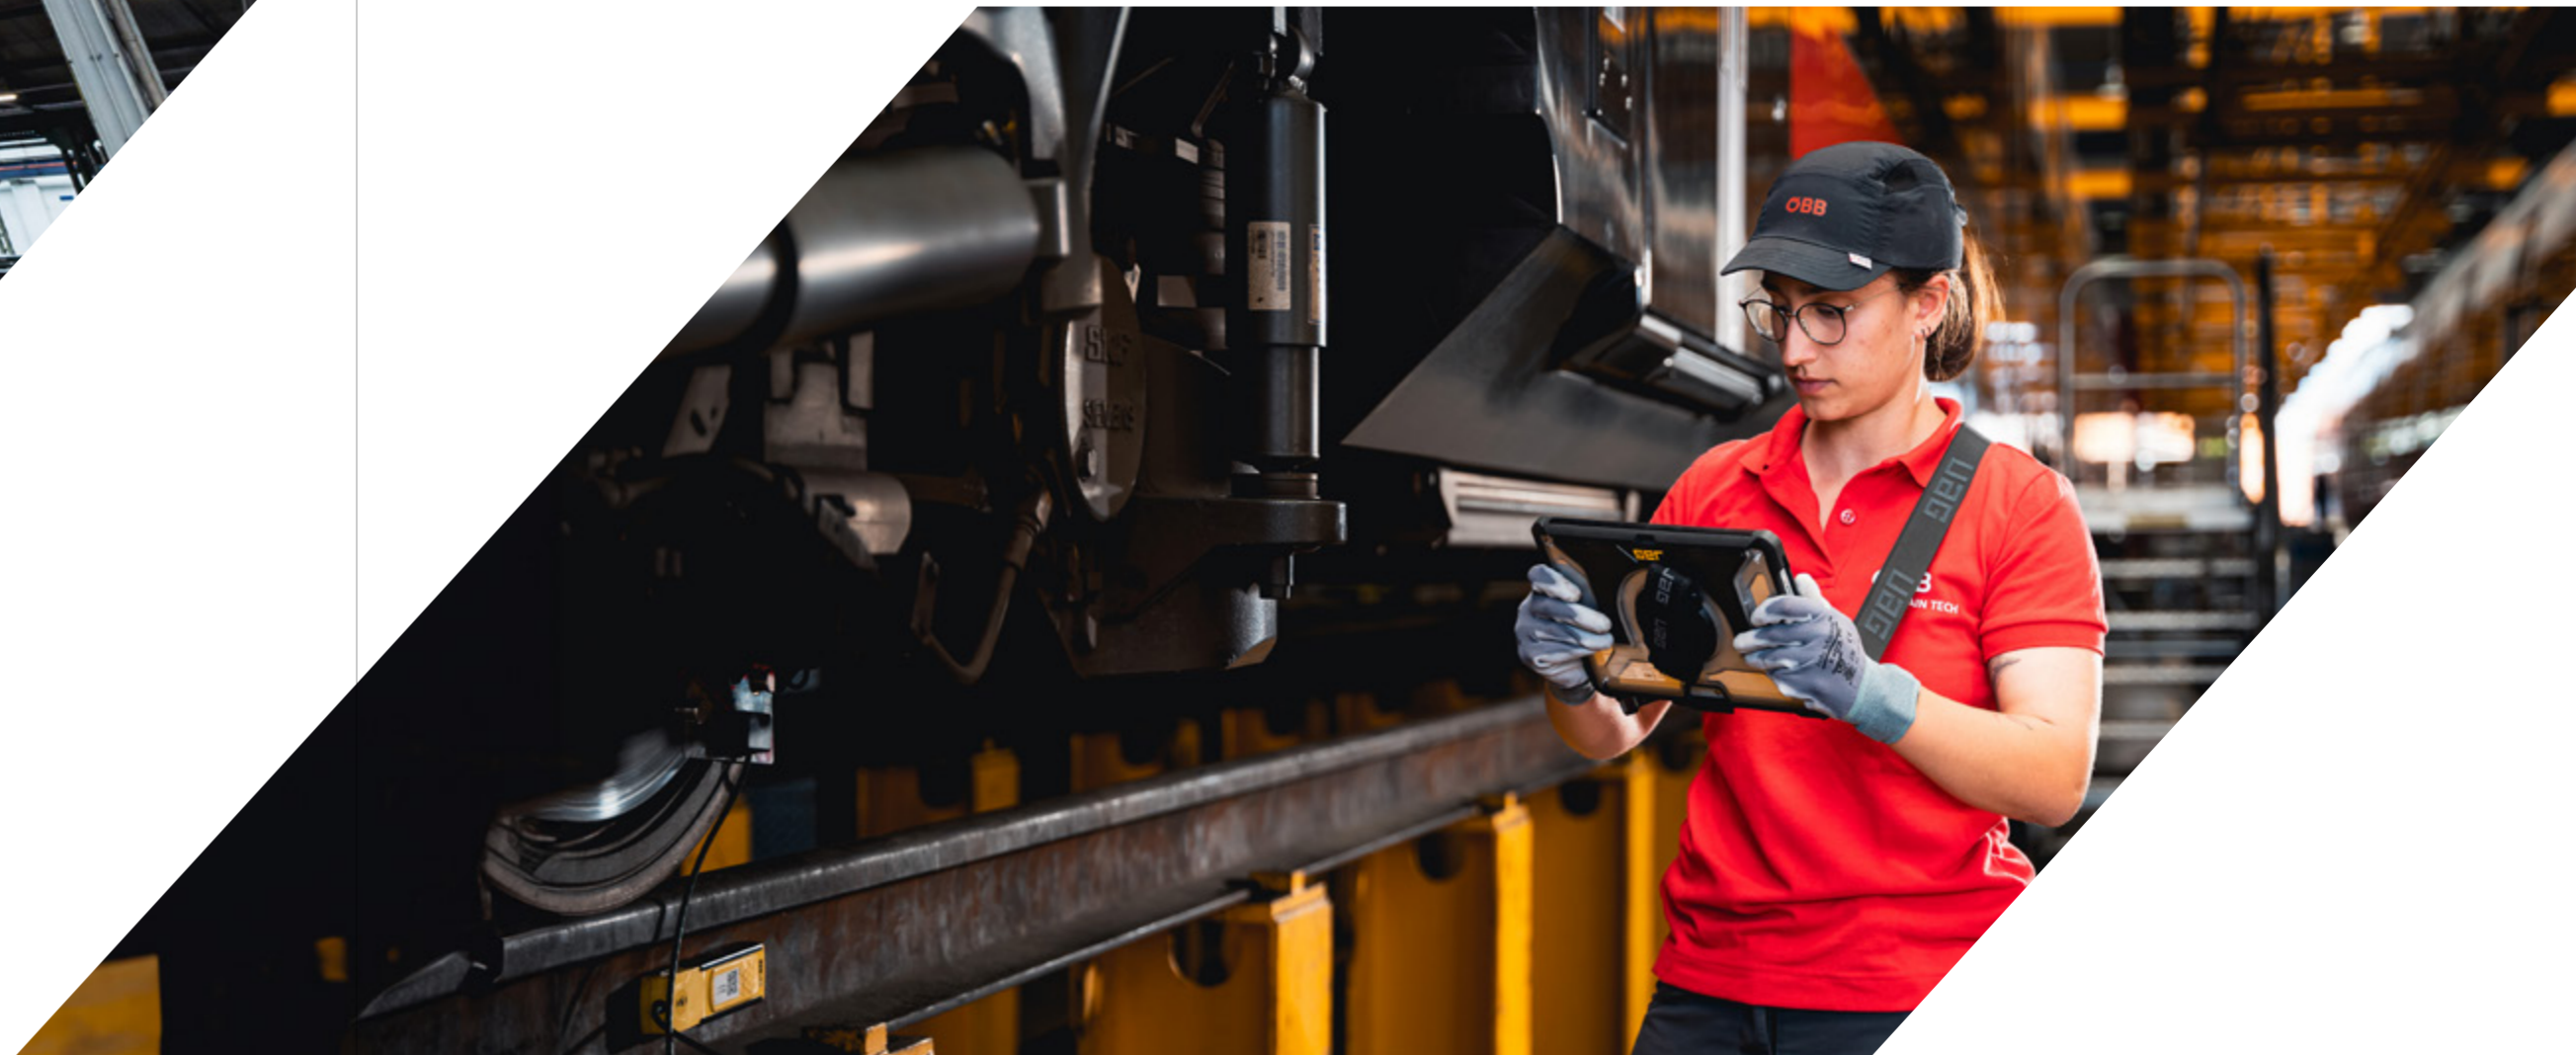

Great experience in major repairs.

We take care of not only the vehicles themselves, but also all the components. Thanks to our experience with our own large fleet and our expertise in almost all modern locomotives in Europe, we can guarantee you the highest quality in all services.

Passenger coaches.

Intelligent maintenance concepts.

We can guarantee you high availability. Because we carry out the repairs when you don't need your vehicles. For you, this means: just get in and go. We take care of everything else!

Components.

High availability.

We ensure the high availability of spare parts by means of a large spare parts pool. And we take care of the maintenance of the components. We attach great importance to sustainability and repair almost all parts that are installed in the vehicles directly in-house in our own competence centres. 700,000 units per year, also by means of additive manufacturing.

Special vehicles.

Flexible and mobile.

Thanks to our expertise in many different vehicle fleets, we are always one step ahead and offer you a high degree of flexibility and mobility. Thanks to our service buses, we are at your service around the clock throughout Austria.

Freight wagons.

Cost-efficient and reliable.

Your freight wagons and their wheel sets, buffers or brake valves are in the best hands in our workshops. And if you don't have access to a workshop in your immediate vicinity, we'll come directly to you instead. You'll benefit from our extensive experience, state-of-the-art technologies and workshops along the most important rail corridors.

Our services.

ECM-Management.

Ensures safe operating conditions.

Our ECM management ensures that your vehicles are always in a safe operating condition.

Materials management.

Fast and inexpensive.

With a rapid supply of spare parts, we ensure an optimum price-performance ratio.

Mobile service.

Quick help is the best help!

Our service technicians travel directly to the respective train and carry out the necessary work on the spot – facilitating the shortest downtimes, maximum availability and operational readiness of your vehicles.

Breakdown train.

24 hours a day. 365 days a year.

In the event of technical problems or accidents on the railway tracks, our breakdown train crews will come to your rescue and ensure that the relevant track sections are cleared quickly and safely.

No matter where you need us, we are always close by.

And offer you our services along the most important railway corridors. Throughout Austria. And beyond.
